

Lucerne, 29 April 2015

INVITATION

OSTEOLOGY PRESS CONFERENCE DURING EUROPERIO LONDON

The Osteology Foundation invites representatives of the media to attend its **Press Conference during the Europerio Congress in London.**

Date: 5 June 2015

Time: 12.30 – 2.00 pm

Location: ExCeL London, Capital Suite 13

The aim of the Press Conference is to inform about the **current activities of the Osteology Foundation**, as well as about **upcoming events** and **collaborations** – such as the one with the European Association of Periodontology, EFP, that organizes the Europerio Congress.

On the occasion of the **change of president at the Osteology Foundation in June 2015**, the retiring President, **Professor Christoph Hämmerle** (Switzerland), will take the chance to look back on his period of office, and **Professor Mariano Sanz** (Spain), the new President of the Osteology Foundation, will present the plans and challenges that lie ahead.

Further speakers will be **Professor William Giannobile** (USA) and **Professor Reinhard Gruber** (Austria).

After the presentations, representatives of the media will have the opportunity to conduct **short interviews** with the attending members of the Osteology Foundation Board: Professor Mariano Sanz, Professor Christoph Hämmerle, Professor William Giannobile and Professor Reinhard Gruber. Interviews will be limited to 5 minutes.

Please **register for the press conference and short interviews in advance**. We will inform you about a possible time slot for a short interview before the press conference.

Sandwiches and drinks will be served.

→ [**REGISTRATION**](#)

We look forward to welcoming you at our Press Conference in London!

ABOUT THE OSTEOLGY FOUNDATION

The Osteology Foundation's motto is „Linking Science with Practice in Regeneration“. The foundation was established in 2003 and its core activities include funding of research projects and organisation of national and international symposia throughout the world. In recent years, the Foundation has expanded its focus. Today, it also offers courses and textbooks specifically for researchers in the field of oral tissue regeneration.
